# FAT-139 type fiber optic distribution box specifications

FAT-139 type optical fiber distribution box is used in the terminal access link of FTTH optical fiber to the access system. It is an ideal supporting equipment for wiring between optical nodes and terminal equipment in optical fiber transmission networks. It has the ability to support optical fiber storage. It has the function of flexible scheduling of light splitting and wiring. The protection level of this product reaches IP65, and is suitable for outdoor pole and aerial-mounted and wall-mounted installation. You can install 3 pcs 1 : 8 PLC miniature splitters as needed. The maximum capacity 120 core, it can hold one oval cable, two branch cables, and a maximum of 24 drop cables. If necessary, you can also install 24 SC adapters, and use fiber optic quick connectors to drop cables.

## Reliable sealing

The input and output cable ports are sealed with silicone sealing rings. The cable ports are tightened by the nut screws, the sealing performance will be better.

## Modular design

Optical fiber splicing trays and storage tray adopt a friendly modular structure design. The number of splicing trays can be increased or reduced according to capacity to meet the needs of different users. Supports coiled storage of optical fibers with loose tubes, and the bending radius of the optical fiber is greater than 30 mm.

## Powerful Features

Supports splicing, splitting, wiring, branching, pass-through inventory of optical cables.

Supports pole and aerial-mounting and wall-mounting installation. Through the grounding device and grounding wire, the metal parts inside the distribution box are supported to be grounded.

## Excellent practicability

The fiber distribution box shell is made of modified PC +ABS material, and the internal metal parts are made of high-quality steel plate materials. It can meet the service life of more than 20 years (depending on the environment), and has good impact resistance and resistance. Corrosion properties.

## Product specifications

Maximum capacity	120 cores
Capacity of each splice tray	24 core/tray
Maximum number of splice trays	max 5 pcs
Number of optical cable entrance and exit tubes	1 oval port, 2 branch ports, 24 drop cable ports

## Ordering Guide

## Accessories information

Product number  
FAT-139

Product size  
290\*210\*111mm

Product weight  
1.37kg

Qty/CTN  
10 set

Inner carton size  
300\*220\*115mm

Outer carton size  
630\*470\*330mm

### Standard accessories

1. Nylon tie		3. Wall mounting kit	
2. Heat shrinkable protective sleeve		4. Hose clamps	

# To the future together.
